NEWTECH™ MEDICAL DEVICES

From Indigenous Ideas to Newtech Solutions

UnePerm®

Hemodialysis Catheter (Long Term) & Kit

CE 0123

Newtech Medical Devices Pvt. Ltd.

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the field of interventional cardiology and hemodialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

Currently one of the largest manufacturer & exporter in the field of Cardiology, Nephrology, Urology & Surgical Disposables in INDIA.

Long Term Dialysis Catheter

Long-term hemodialysis catheter is a tunneled, implantable catheter designed to provide reliable and sustained performance for patients requiring chronic hemodialysis. It is intended for extended implantation and enables efficient bi-directional blood flow with minimal risk of infection and thrombosis

Standard Kit Contains :

- Long Term Hemodialysis Catheter
- Vessel Dilator
- Peel Away Sheath
- Introducer Needle
- Guidewire
- Tunneler
- Drape Sheet
- Injection Caps
- Gauze Sponges
- Scalpel Blade
- Hollow Syringe
- Needle with Suture
- Catheter Fixator
- Syringe

UnePerm®
Hemodialysis Catheter (Long Term) & Kit

Product Feature

Double D Design Tube
Double-D tubing design provides optimized flow separation, improved structural stability and kink resistance.

Various Lengths
Available in multiple lengths to accommodate varying clinical preferences and patient anatomical requirements.

Polyurethane Material
Polyurethane material offering excellent mechanical strength, flexibility, and resistance to wear and fatigue in long usage.

Symmetrical And Staggered Tip Transition
Available in symmetrical and staggered tip designs to accommodate varied procedural and flow performance needs.

Cuff
An integrated 8 mm wide cuff promotes tissue in-growth, helping maintain catheter stability during long-term use.

Tunneler
A tunneler is provided to facilitate controlled creation of a subcutaneous tunnel for catheter positioning.

NEWTECH™ MEDICAL DEVICES

From Indigenous Ideas to Newtech Solutions

UneCath®

Short-Term Hemodialysis Catheter & Kit

CE 0123

Newtech Medical Devices Pvt. Ltd.

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the field of interventional cardiology and hemodialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

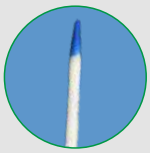
Currently one of the largest manufacturer & exporter in the field of Cardiology, Nephrology, Urology & Surgical Disposables in INDIA.

Short-Term Hemodialysis Catheter

Short-term Hemodialysis catheter is a sterile, flexible multi-lumen catheter designed for temporary vascular access, enabling efficient blood flow for hemodialysis over short durations in acute or emergency cases.

UneCath®
Short-Term Hemodialysis Catheter & Kit

Product Feature

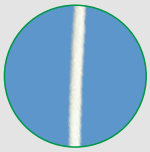


Infinity Transition Soft Tip

Infinity Transition Soft Tip enables controlled advancement with reduced risk of vessel trauma.

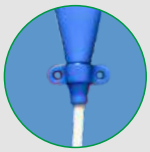
Variety Of Extension Tube

Offered in multiple extension tube configurations for flexible setup and ease of use.



Polyurethane Material

Made from biocompatible polyurethane to support safe use and consistent catheter performance.



Rotating Suture Wing

Rotating suture wing provides adjustable fixation to support secure catheter placement.

Multi Lumen Availability

Available in single, double, and triple lumen configurations with curve and straight designs.

Newtech Medical Devices Pvt. Ltd.

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the field of interventional cardiology and dialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

Currently one of the largest manufacturer, exporter & importer in the field of Cardiology, Nephrology, Urology & Surgical Disposables in INDIA.

Fistula Needle

Newtech Medical Devices Fistula Needle is used to access the blood vessels for dialysis process. Ultrathin tube and sharp needle reduces the pain on insertion. Soft and elastic tubing is convenient for the patient. Rotatable and fixed wings are easy to handle and control. Screw adapter fit well with blood lines. A.V. Fistula Needle is made to satisfy all clinical requirements.

Transducer Protectors

Newtech Medical Devices Transducer Protectors are an effective barrier against bacteria and they are used in hemodialysis blood-lines, Our Transducer Protectors are manufactured with fully automatic technology. The membranes are ultrasonically welded and parts are tested with automatic testing equipment in order to guarantee superior quality of the parts. It can be fitted in any blood line or other medical device, covering the market requirement.
